POSTAL SERVICE

September 6, 2013

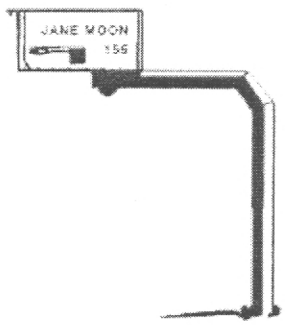

Postal Customer

Dear Postal Customer;

The growth of suburban areas and the shift of population from one geographic area to another have created new challenges for the Postal Service. To meet these challenges, delivery regulations were changed to eliminate door to door delivery as an option for residential areas. New residents are now required to change from door slot and door mailbox delivery to curbside mailbox delivery.

Therefore your mailbox must be relocated to the curbside by September16th, 2013. The specifications for curbside placement are shown below.

Exhibit D

Generally, mailboxes should be installed at a height of 41–45 inches from the road surface to the bottom of the mailbox or point of mail entry. Mailboxes are set back 6–8 inches from the front face of the curb or road edge to the mailbox door. However, because of varying road and curb conditions and other factors, the Postal Service requires customers contact their local Post Office™ before erecting or replacing mailboxes and supports. Please contact: ***Brian Hogan*** at 203 321-3910 before installing your mailbox.

Thank you for the opportunity to address this matter with you.

Sincerely;

Brian Hogan,
